## Education

**Manav Rachna International Institute of Research and Studies**

**09/2022 – 06/2026**

*Bachelor of Technology in Computer Science Engineering*

*Faridabad, India*

## Technical Skills

**Frontend:** Next.js, React.js, Tailwind CSS, JavaScript

**Backend:** Node.js, Express.js, Firebase, LangChain, Trigger.dev

**Tools & Others:** Git, GitHub, Figma, Photoshop

**Familiar With:** GenAI, Google Analytics, SEO, C++, Docker

## Experience

### Galaxy.ai

**Remote**

*SDE Intern*

*01/2026 – Present*

- Building an AI-powered workflow automation platform with a visual flow builder for connecting models, tools, and external APIs.
- Implemented reusable node components (triggers, inputs, actions) enabling low-code orchestration of multi-step workflows.
- Worked on execution and monitoring features to debug and inspect workflow runs reliably.
- Collaborating with the core team to refine architecture and ship features rapidly.

### Adquora

**Remote**

*SDE Intern*

*09/2025 – 11/2025*

- Part of the core tech team contributing to the startup's digital foundation.
- Designed and developed the company's official website.
- Collaborated on upcoming product development initiatives.

### KPMG India

**Gurugram, India**

*Academic Trainee*

*06/2025 – 08/2025*

- Worked in the **CRM & Automation** team building workflow optimization PoCs.
- Designed workflows and assisted development of an internal AI bot.

## Projects

### AuroraPlay — React.js, Spotify API, Gemini API

- Built a full-stack application delivering weather-based music recommendations.
- Integrated Spotify API to dynamically curate playlists.
- Designed a responsive UI visualizing live weather data. [GitHub](#) | [Live Site](#)

### Flowsmith — Next.js, React, Trigger.dev, TypeScript, GenAI

- Developed a visual AI workflow orchestration platform with draggable nodes and configurable steps.
- Implemented execution logic with task orchestration, error handling, and real-time workflow status.
- Integrated LLMs and external APIs to enable complex, tool-augmented AI pipelines.
- Focused on clean, responsive UI/UX for rapid workflow design and iteration. [GitHub](#) | [Live Site](#)

### InterviewD — React.js, Azure OpenAI, Firebase

- Built an AI-powered mock interview platform using GPT-4o.
- Integrated webcam-based posture analysis with live feedback.
- Generated PDF performance reports post-interview. [GitHub](#) | [Live Site](#)

## Achievements

- 1st place – Code Sangam'24 (SGT University).
- 1st place – Design Blitz (FSCDC).
- 3rd place – Hacked-a-thon (Jamia Hamdard).
- 3rd place – Innoverse'36 (SGT University).
