EDUCATION

Manav Rachna International Institute of Research and Studies

Bachelor of Technology in Computer Science Engineering

Faridabad, India

Sep 2022 – Jun 2026

EXPERIENCE

RazorNext

Frontend Engineer Intern

Gurugram, India

Jul 2026 – Present

- Built production web applications for **Flipkart Foundation**, **Boston Scientific**, and internal retail platforms using **Next.js**, **React**, **TypeScript**, and **Tailwind CSS**.
- Integrated **Strapi** headless CMS with server-rendered routes **Zod**-validated environment config, implemented SEO metadata and **GTM** analytics.

SciTech Industries

Software Development Engineer Intern

Remote

Mar 2026 – June 2026

- Architected an **AWS Edge-to-Cloud telemetry platform** (IoT Core, Greengrass V2, Kinesis, Lambda) with an **offline-resilient MQTT pipeline**, ensuring fault-tolerant monitoring of **50+ industrial edge devices**.
- Built and maintained **full-stack manufacturing applications** using **Next.js**, **NestJS**, delivering production modules
- Designed an **offline-resilient MQTT ingestion pipeline** with a **5,000-message local buffer**, ensuring fault-tolerant telemetry delivery during network disruptions and edge downtime.
- Automated **fleet provisioning** and **OTA deployments** for Raspberry Pi edge devices through custom Greengrass components while strengthening cloud security using **AWS Secrets Manager** and **least-privilege IAM policies**.

KPMG India

Academic Trainee

Gurugram, India

Jun 2025 – Aug 2025

- Developed an **AI-powered business intelligence agent** using **LangChain**, **LangGraph**, and **Generative AI technologies** to retrieve and summarize enterprise data through **natural language queries**.
- Built agent workflows capable of translating business questions into **structured database retrieval operations**, enabling rapid access to revenue, client, and operational insights.
- Designed **retrieval and reasoning pipelines** that generated **structured responses** from internal datasets, improving accessibility of business information for **non-technical stakeholders**.

PROJECTS

Flowsmith | [Live](#) | [GitHub](#)

- Built an **AI workflow orchestration platform** supporting **15 configurable node types** and integrating **GPT-4**, **Claude**, **Gemini**, **Llama**, **ElevenLabs**, and **Fal.ai** through OpenRouter.
- Architected a **DAG-based execution engine** with parallel task execution, SSE streaming, cache-aware node skipping, workflow persistence via **PostgreSQL/Prisma**, and authentication using **Clerk**.

InterviewD | [Live](#) | [GitHub](#)

- Developed an **AI-powered mock interview platform** using **Azure OpenAI**, **Gemini**, and **Auth0** to generate interview questions, evaluate responses, and produce automated **jsPDF performance reports**.
- Implemented **multimodal posture analysis** by processing webcam captures every 15 seconds to assess confidence, engagement, body language, and professionalism in real time.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript

Frontend: React.js, Next.js, Tailwind CSS, Framer Motion

Backend: Node.js, NestJS, Express.js, REST APIs, LangChain, LangGraph

Databases: MongoDB, PostgreSQL, Firebase

Cloud & Infrastructure: AWS IoT Core, AWS IoT Greengrass V2, AWS Lambda, Kinesis Data Streams, AWS Secrets Manager, Docker

LEADERSHIP & ACHIEVEMENTS

- Club Secretary**, **MRSDC** (Manav Rachna Student Developer Community); organized **10+ technical events**, workshops, and hackathons reaching **60–80 participants** per event.
- Organizer**, **Hack It Up**, an intra-college hackathon focused on software development and innovation.
- 1st Place** – Code Sangam’24 (60+ teams) and Design Blitz. **3rd Place** – Hacked-a-thon (50+ teams) and Innoverse’36.
